GEZE is a German manufacturer with a prestigious heritage of innovative systems for door and window technology. GEZE was founded in year 1863 and is a family owned company. GEZE is a globally leading player in the building technology with emphasis on distinctive design, premium quality, engineering solutions and best services for manual and automatic door, window and safety systems. The company continuously develops innovations and delivers pioneering future-oriented standards in building technology on-site at the company's own technology centre at its head-quarters in Leonberg, Germany.

For complete peace of mind – 24 hour Service and Repair

Service, repair, preventative maintenance packages and warranty extensions for automatic doors from a name you can trust.

Sliding Doors • Revolving Doors • Swing Doors

Service and Repair

We recognise that complete peace of mind comes from knowing that if something should go wrong you have the support you need when you need it.

Whether you require a fast and effective response to an emergency door repair or wish to maintain the safe efficient working of entrance doors through a planned preventative maintenance contract we can help. You can rely on GEZE.

Where return visits are required, you can be sure of a quick response and if additional work is needed our competitively priced quotation will be provided within 24 hours or receipt of enquiry or engineers report.

Quality has never been a subject for compromise at GEZE. It has always been an integral part of our product and service philosophy. So when it comes to after sales support or a reactive call out service you can be sure of the same high standards.

GEZE Middle East is committed to providing the very best in customer care.

Over 140 years experience in research, development and manufacturing techniques goes into our range of door and window control systems and is behind the market leading status of GEZE GmbH in Germany.

Preventative Maintenance

Planned preventative maintenance is essential to ensure both operational performance and safety of your automatic door system.

We work closely with our clients to establish their needs and provide competitive, tailor made preventative maintenance packages.

We can also offer extended part warranties if a maintenance package is taken up within the first 6 months of commissioning.

Typical Preventative Maintenance Options

Option 1

Two or more predetermined service visits per year

Option 2

Two or more service visits per year plus call out.

Option 3 (comprehensive)

Two or more service visits per year plus call out plus any replacement parts.

We recommend at least two service visits per year.
